

CORRIGENDUM TO ORSAC TENDER NOTICE No.02/2018

Supply, Installation & Commissioning of Modular UPS of 150 KVA with N+2 redundancy to ORSAC on buy back of one 2 x 50 KVA PRS, one 15KVA & two 10KVA online UPSs with existing battery banks.

The following changes has been made in the tender paper as per the discussion in the prebid meeting.

1. In Schedule "A " 2) vi) Documents in support of supplies of 150 KVA or more capacity modular UPS made during last two years to different Govt. and Public sector under takings.
2. In Schedule "B" A.3 A/C, Output, Overload A/C mode: = 100% Continuous.

Technical committee also recommended to issue the P.O. directly to the OEM as all warranty, after sales service, Manufacturing defect and CAMC will be the responsibility of OEM. Except these above two points all other will remain unchanged.

Regarding waving out of EMD and recommended changes, the waving out of EMD will be considered on submission of documents against the same.
